

# Holy Family WRITES...

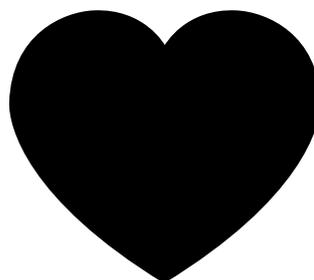

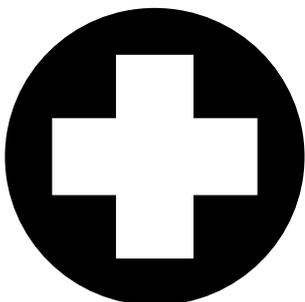

**Issue 7 Term 4: November 2020**  
*We're All in This Together*

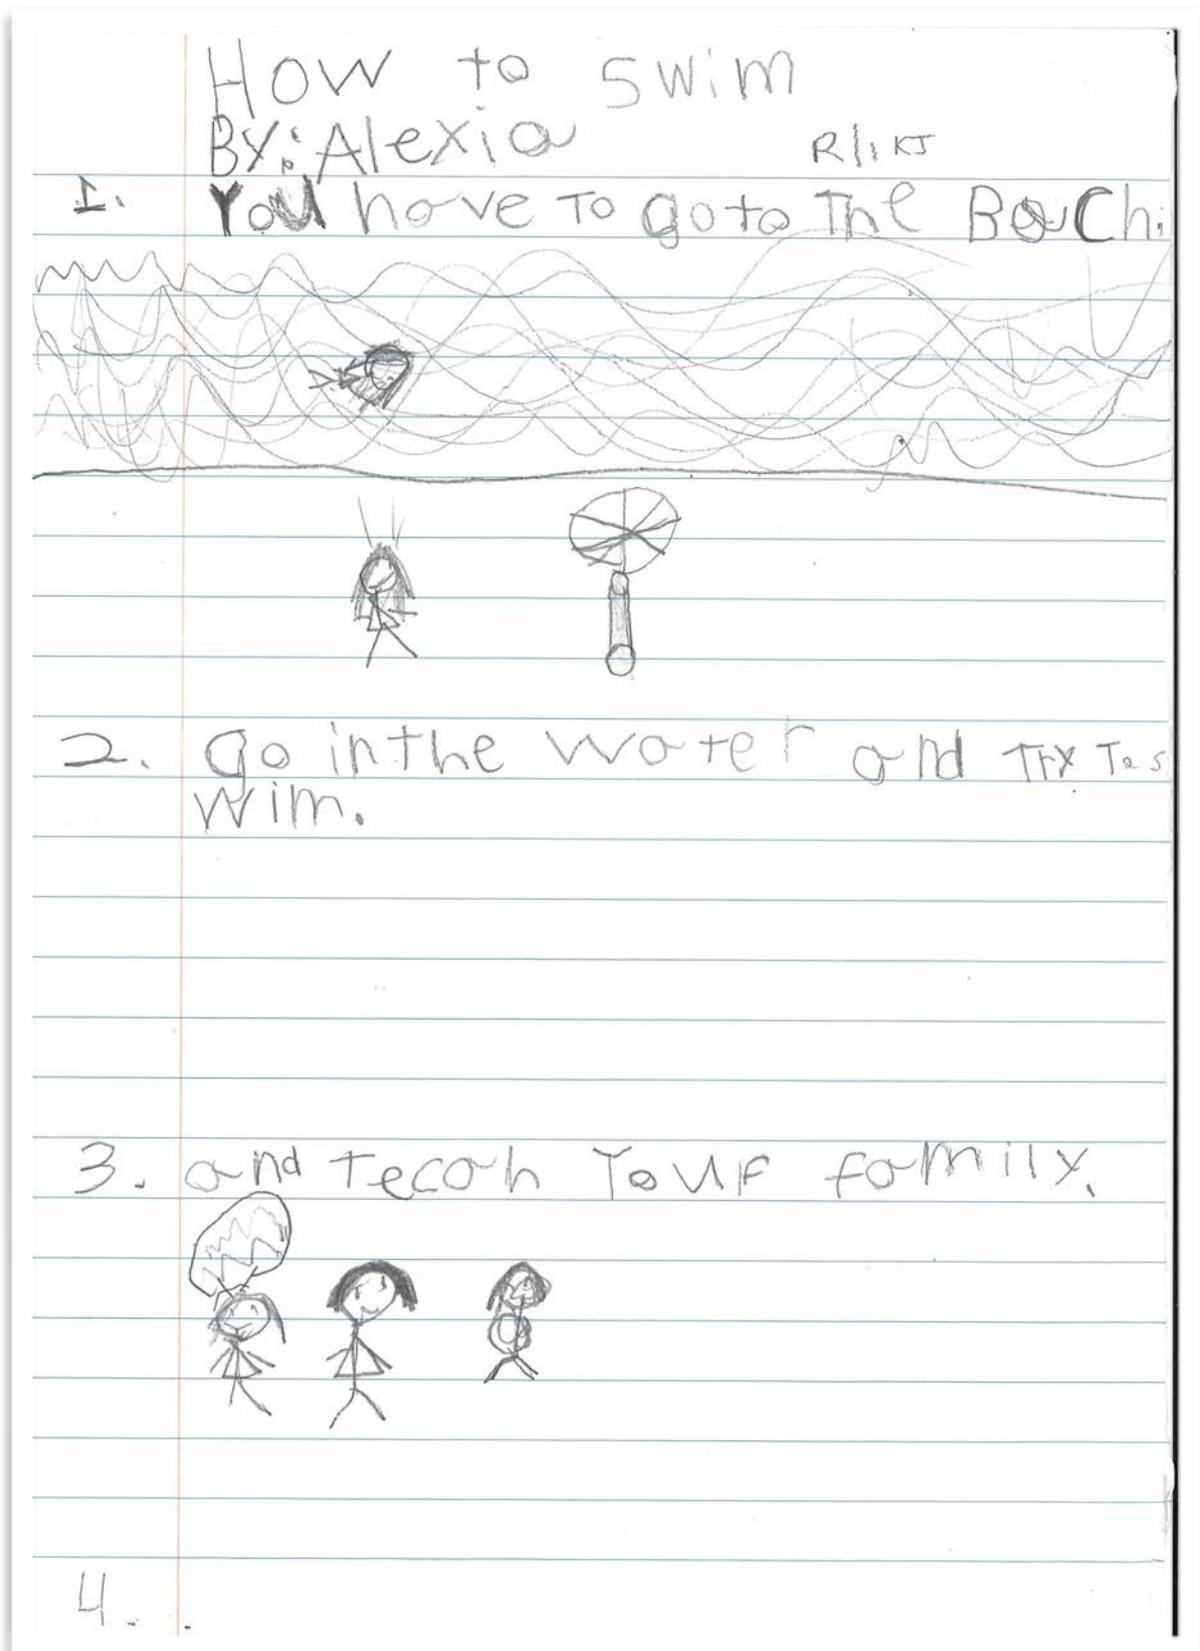

## **...And we're back!**

A warm and healthy welcome to our 7th issue of Holy Family Writes. It's been a wild ride over the last week, and we're so grateful to be back with all the necessary precautions in place. It's times like these that we truly appreciate the simple things in life.. whether it be the comfort of our homes, our families and loved ones, our pets that entertain us or the leftovers from 2 nights ago! One thing's for sure: at Holy Family, we are all in this together and we'll be here for you no matter what. We'd like to acknowledge our amazing teachers who have worked overtime to plan for remote learning, as well as the staff who have continued their work behind the scenes to ensure everything is safe and ready for us to return to. Let's go!

One night Little Red Hen went outside to milk the cows lay some eggs, and close the greenhouse down for the evening. As she sat milking, she remembered a task that she'd left undone.

"HEAVENS!" she squeaked. "I've forgotten to plant the corn. I wonder if my friends would help?" Back she went into the house. "I'm a wee bit tired," she said. "Would one of you help me to plant the corn?"

Pig waved his paper. "Not me. I'm stuck on 5 down. Four letters, rhymes with hazel, begins with an L?"

Cat stretched by the fire. "Not me. What a lovely time I'm having..."

Duck looked round from the mirror. "Not me. I've got feathers to preen."

Little Red Hen sighed and went back outside. She milked the cow, laid some eggs, shut down the greenhouse, and then she sowed the corn. By the time she'd finished, it was nearly morning.

# Year 3

## A Day at a "Desert"

I am going to tell you a story. It happened when I was 9 years old. I was with my family. In the desert it was so hot. Me and my family saw pyramids. We got ancient artefacts. We found this locket it was made out of gold and we found some diamonds. Now I'm going to tell you the story.

### Pyramid

When me and my family were at a shopping centre. We saw a shop it was dark. We already bought a lot of things but we still went in to the shop there was a machine in there.

### Teleport machine

It looked super old we asked the people who worked there they said it is a teleporter. We asked how much is it for? The people said it is for free, because it doesn't work so we took it.

When we got home, we pressed a button and it teleported us to the desert. I said it works they lied to us. Then we started walking, we found a town.

The people in the town said you can go into one of the houses. We said "ok". They gave us food. The food was bread, rice and carrots.

The town was small there were few numbers of people. We asked them "why are there few people" "One of the villagers said "this town used to have a lot of people". But one day an enormous, big and fast man came to the town. He was very dangerous so most of the people ran away from the town.

Then, me and my family went to the big, fast man. We challenged if we won in a cricket match you have to go away from this town.

Then, the big, fast man laughed and somehow agreed to play the cricket match.

But then he said, "look my team!!".

He accepted to play the next day. We agreed to the challenge.

After we woke up, we went to play the cricket. The villagers were on our team. We won the toss! We decided to do the bowling first. The bad guys team scored 180 runs. Then it was our turn to do batting. We had one bowl left and 6 runs to make.

I hit a sixer on the last bowl, we won the match. The bad guys team scored 180 and we did 181.

As agreed, the bad guy have to leave the town. Finally, the enormous, big, fast man left the town with shame. He did leave the town!

Villagers were very happy and they praised us for organising the cricket match and winning with the bad guys. It was time to leave. We requested the villagers "can you fix the teleporter". They said "yes", they fixed it in two hours then we teleported back to our home.

## Recount of my day

I woke up at 8:50, had breakfast and signed in then did my first learning piece of the day the first math. After I completed that I moved on to my next math, math 2. Then I did the art challenge (only a few like Mr Pearce said) I did my favourite book which is harry potter so I just did the first one, then the dinosaur and finally something around me I did my light that says my name. then I did 20 solid minutes of reading and I was thinking about doing this recount but I thought wait to the end of the day. then I went and got tested for covid 19 it wasn't nice and I had an instant head ache but I understand that it had to be done. (I'm not sure if Its positive or negative but they said it will come back 1 to 3 days and while we wait even though he is an essential worker my Dad gets to stay home now while we wait) And after I might go in the pool whoooooo!!!!!!!!!!!!!!!!!!!!!!

COVID 19 Plan

Who

Camila Michael

Wanted

Camila and Michael wanted to find a vaccine to cure everyone in the world. So that it is a word that no longer existed.

But

They realized that a lot of people got infected, so she got her masks and everything she needed like science stuff to make this whole thing happen. Then once she got everything she needed, she called Michael to get ready for making this vaccine and healing this world.

And

Then they got to a lab where they have learnt millions of things that some scientist don't know, when they got there they turned on the machine and were ready to do this.

Once they did that, they started to make vaccines and testing them to see what they do or how they help.

Then Camila got found a vaccine that works, so she gave it to people and see in a few days to see if they still got COVID 19. After a few days, the person that she tested on was mind-blowing, she was perfectly fine and doesn't have any of the symptoms. After that she gave the world the vaccines and COVID 19 is never going to come back.

Sizzling Start

BANG! As they tried to experiment, they were so disappointed about how that experiment didn't work. "UGGHHHHHH THANKS, A LOT CAMILA YOU MADE ME MESS

UP!" He screamed like he was a beanstalk giant talking to Camila, "sorry Michael but that was not me," she told him. But he calmed down after a few seconds, "man that was kind eggs plosive you know what I mean?" "Yeah, I get it although we need to focus on an actual experiment." She turned on the TV and Michael saw a news reporter and said "EVERYONE IS COUGHING AND SNEEZING WHO CAN SAVE US NOW!" He felt deep pain down under

but said, "what can we do?"

# Year 4

"Buzz, buzz!" went the bee as it was flying. I wacked the bee on to the ground. "B.... u...." like if it was shot by a gun without being seen. I sat on the table waiting impatiently for my friend Olivia. We were at the most famous expensive restraint in town called 'Charlottes Expensive Restaurant' We were going to have a big mac and cheese bowl with a nice cheesy sauce that is as soft as fluffy slime and a Italian pasta with a tasty red sauce. We told the waiter our order that had a white romantic suit. It was as white as a paper being polished to a shiny white. He replied "That will be \$80 please!" with a nice look on his face. Olivia yelled "\$80?!?!?! Let's go Mia! This is unbelievable. We would just have to go to a classic, clear, cramped restaurant. I yelled miserably "Like that is such an embarrassment that we can't go to that restaurant, the best restaurant in town. This is ridiculous!" Olivia turned her head left. "OMG, DO YOU SEE WHAT I SEE?" I replied "Yeah just a wallet?"

"This is the luckiest day of our life! We could still some money from that wallet!" I yelled "NO! That is stealing! I am an honest person. Being honest is a good thing in life, good things will come back to you if you be honest." Olivia ignored me like a plant who can't hear. She got the money out of the wallet as her eyes were shining and shimmering. "100 BUCKS!" Now we can get the dinner!" I asked "who does it belong to?" "Patrick Gilbert." Olivia mumbled. I snatched off the wallet and the money like a lion and said "This guy is my neighbour!" I ran as fast as a cheetah and knocked on the door. "Knock, knock" as the door creaked open. "Here's your wallet!" The guy said with shock "W..h...e...re did you find it? I was looking for it everywhere!" Thank you, thank you, I owe you 100 bucks!"

"No, I can't take it!" I replied as Olivia was disappointed on her face. "Do you know how much this wallet is special to me?! I'll tell you the story. I was a young kid, the age of you. My dad was going to war, I was upset as a sad person. At the end of war, he passed away. The soldier that came to my house gave me his wallet. It was full of scars, rips, as he died in an explosion. It makes me remember of my dad. Thank you for very much!" As the man closed the door, Olivia came and said to me "You were right, if your honest then good things come back to you." Me and Olivia walked to another restaurant.

Message of the story- If you're an honest person, good things will come back to you.

We are friends Forever  
and we can be very Clever  
Friends are Funny  
and we all love Bunny's,  
We care for each Other  
and we all have Brothers  
We all have caring Mothers  
and we all have love in each Other,  
We are very Strong  
and we all like dancing to Songs,  
We are all beautiful Friends  
and we will never End,  
We all are True  
and we all love Blue  
We all are loyal  
and we act very Royal,

We can get very Warm  
and we don't like Storms  
We are Kind  
and we have good Minds,  
We are all Giving  
and we can be very Forgiving  
We are very good Buddys  
and were very good Studies,  
We Respect  
and we don't Effect,  
We are Brave  
but we don't like Caves  
We are all Truthful  
and never Untruthful.

By Holly, 4BP

### Molly spots two strange birds

When molly woke up she opened her window to let the sunlight shine through but something caught her eye. She saw 2 strange birds on a tree. One had purple feathers and yellow poke dots that bird was drinking out of a Coca Cola can, that made the purple feathered bird look very strange. But the other one was a neon green with orange stripes and it was eating a burger from McDonald's yea thats stranger then the purple feathered bird. Molly was about to take a photo until her mum said " it's time for breakfast " she wanted to keep watching the strange bird but today was pancake and waffle day her favorite but her stomach was getting more hungrier every time she thought about missing out so she just ran down to the kitchen. When she was on her way back she hoped that the strange birds would still be there so she could take photos of the strange birds but when she got back to her window it was to late the birds left already she was quiet upset because she didn't know if she would see those strange birds again. The whole day she sat at her desk and wrote in her diary she drew pictures of the strange bird until it was dark she decided that she would sleep early so she got ready and slept. When she woke up she opened the window again she saw the 2 strange birds she was so excited she took so much photos that there was no more room in her camera left to take photos. She didn't care about eating breakfast today because she didn't like eating Vegemite on toast . She sat there admiring the birds she even decided to go out and sit down and talk to the strange birds. When her mum told her to come in, she had to take a bath so she did after that she decided that she would wake up early tomorrow and see where the strange birds were coming from so she woke up at 5am. She tip toed over to he window and looked outside she saw a weird alien spaceship she took photos of it and then she saw the strange birds come out of the spaceship "so that's where they were coming from " Molly whispered she heard her mum coming so she hurried back to bed and fell asleep.The next day she realized that the strange birds weren't there but she clearly saw the strange birds at 5am. She texted her friends and sent photos of the spaceship and the 2 strange birds. Her friend was shocked about it ever since that day she never saw the 2 strange birds.

Where could they be...???

# Year 4

## My recount plan

Saturday – Play netball & a sleepover with Eva

Sunday - Go swimming with Eva at my aunties house

Monday – Stay home and have my own sports day with Marli

Tuesday – Stay home and play learning games with Marli

Wednesday – Colour in and draw, planned a short story and get tested for COVID-19

## My Recount (draft)

On Saturday, I had to play netball for my team called Fireworks. I think everyone in the team tried their best even though we lost. After the game, I went with Eva to her house and we played games. After we played a lot of fun games we played with her dog. After that my mum came to pick me up. When my mum was picking me up, I asked her if me and Eva could have a sleepover and she said yes. Then Eva packed her bag so we could leave. When we got to my house, we played our laptops and watched YouTube. Later that night we had some popcorn then went to bed.

Once we woke up, Eva watched her phone and I watched my iPad. After we finished watching YouTube we got up and had pancakes for breakfast. Later that morning, we started to paint on a big piece of paper. After we painted a giant carrot we put on our swimmers and went to my Aunties house to go in her pool. At first the pool was freezing cold but we got used to it quickly. For dinner we had some pizza and then we took Eva home. Once I got home, I went to sleep.

On Monday I didn't go to school because of Covid-19. I was sad because I missed out on sports day. At home me and Marli made our own sports day. We ran laps of the backyard. When we finished we played some learning games. Before we had dinner, we watched YouTube. Then we ate and went to bed.

On Tuesday I didn't go to school again. I didn't go to school because of Covid-19. On Tuesday It was a bit boring because we didn't have anything to do. First, we did some fitness as our P.E but then we started to play learning games. At lunch time we played together and then watched YouTube. After lunch we played more learning games. When we stopped playing games we had dinner then went to bed.

Wednesday morning was a bit scary. I was scared because I had to get tested for COVID-19 and I didn't know what to expect. We waited a long time in the line so I started do draw and colour in because I was bored and scared. When we were at the front of the line I was really scared. Once we got tested my nose was hurting a lot.

## Insects Insects Everywhere

In 2025, My mom and dad were just sitting on the sofa and I was too. My name is Sam my dad's is Jack and my mom's is Jessy. We were just talking about a trip that we can go to. I saw an insect outside. I said " why not go to an insects place". My mom said " fine ". Then we packed our bags with sprays and a cover stick to catch them. So we went off to a 2 and a half an-hour drive I was exhilarated. When we got there I rushed out the door and saw those charming insects.

When I got my catching stick I try to catch one but it bit me and I was in pain I had to lay on the ground as my dad came he had a remove bug bite spray.

He spayed it on me and I was ok then we "carefully" went back home.

## David Unaipon biography

David was born on 28th of September 1872 and died in 1967 on the 7th of February both in South Australia.

The parents of David are James Unaipon and his mother is Nyumbudany Unaipon. Not much is known about them.

In David's lifetime he invented a shearing machine to make it easier to shear and made the centrifugal motor.

David Unaipon was a political advocate for aboriginal people's equality so they can have the same rights as the whites.

The effect of David is that he invented things for daily work and had the chance to equal everyone.

# Year 5/6

## Biography of Freeman

Freeman was an Olympic runner/athlete. She was born in Mackay. Her mother was in a different tribe to her dad. Her mother was in the tribe of Kuku Yalanji and her father was Burri Gubba. Cathy Freeman is a well-known Indigenous athlete. She was the first Indigenous woman to win gold in the Commonwealth Games in 1996. At the age of 16, she went into many championships. In 2000's Sydney Commonwealth, Cathy Freeman's achievements were, winning the 2000 400m race and won gold. Freeman retired in 2003 and she got involved in a lot of charities, such as the Cathy Freeman Foundation which she made herself. She did that because she can help her community and she worked for education. In 2012, then she became an educator and every one gets inspired. She has a kid called Ruby-Anne-Susie-Murch. That's the end of Freeman's biography!

# Year 5/6

## Jonathan Lyndale Kirk

Jonathan Lyndale Kirk also known as Dababy was born in Cleveland, Ohio, United States on the 22 of December 1991 and is now twenty-eight years old and lives in Charlotte, North Carolina which is where he was raised.

Jonathan Lyndale Kirk grew up in Charlotte, North Carolina with his mum and two older brothers. One of his older brothers Glen Johnson had unfortunately died in 2020. Jonathan has one daughter with a woman named Meme and has been a father figure to Meme's son and he is now expecting his third child.

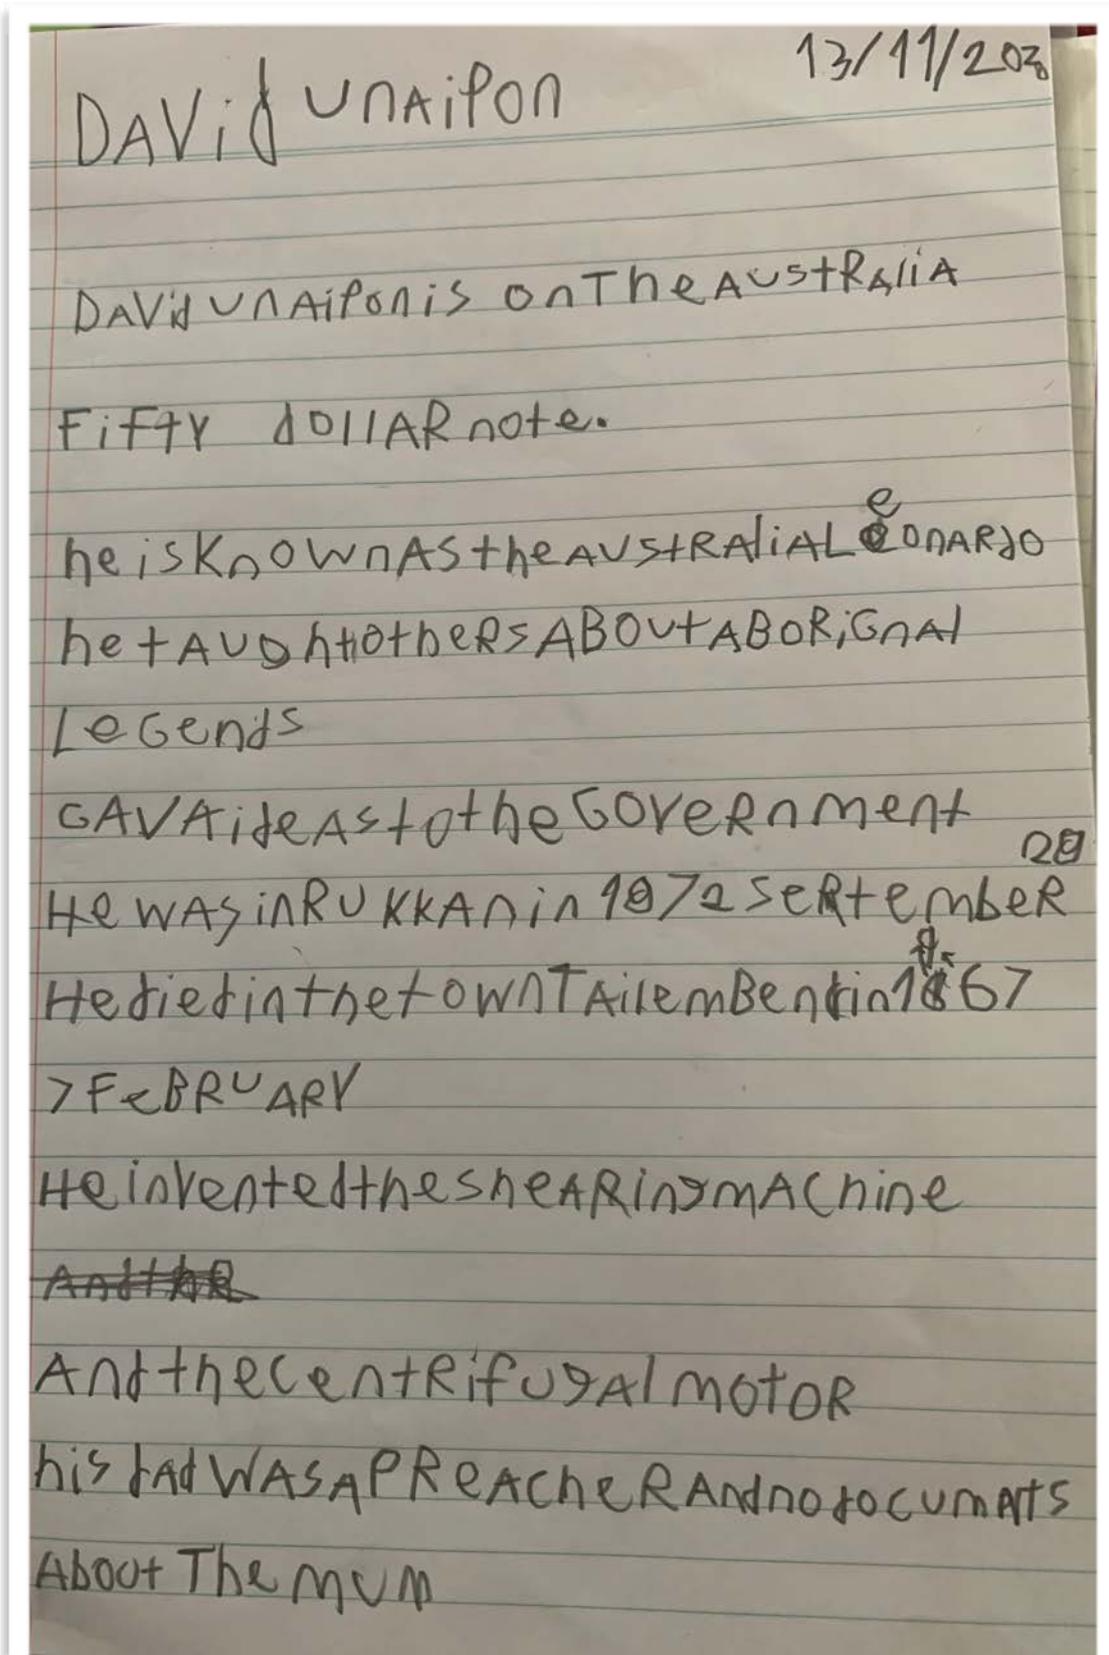

An accomplishment from Jonathan Lyndale Kirk was when he became famous quickly, because he used to rap about Jesus and not much people knew about him but he didn't stop rapping and made better songs and is now famous and rich and most of his songs have hit the charts.

The most major thing that happened was when Jonathan Lyndale Kirk made a song with Rodrick Wayne Moore Jr. (RoddyRicch) "Rockstar" and this song was off of Dababy's album "Blame it on Baby" and the song hit the top of the charts in America.

To sum it all up Dababy is a very famous rapper and is well known world-wide and he can be inspiring for his perseverance not to give up rapping even if no one knew him at that time and if you look at him now, he is a famous rapper, has a song that hit the top of the charts and is rich.

## Orientation

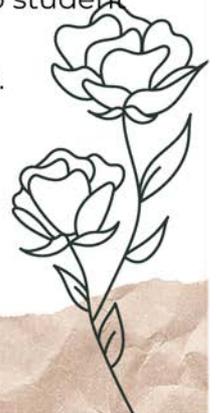

Marie Curie (also known by her full name Marie Skłodowska Curie) was a Polish physicist. She is most famous for her reasearch around radioactivity, which later led to her discovering radiation. In addition to her being a physicist she was also a mother of two children and a chemist.

## Family Background

Marie Curie was born in Warsaw, (the capital of Poland) on November the 7th 1867. She was the youngest out of her siblings having three older sisters and a brother. Both of her parents were teachers, her father being a math and physics instructor and her mother being a teacher and a headmistress at a girls school. When she was just 10 years of age, she lost her mother due to a disease called tuberculosis. As a result, Marie Curie suffered from a life-long battle with depression.

## Education

Growing up and being the child of two teachers, at a very young age, was taught to read and write early. Thus she became a very bright child and excelled in school and studies thanks to her sharp memory. In secondary school she was the top student in her class, but despite being top of the class , she couldn't attend the male-only University of Warsaw. Instead, she continued her education at Warsaw's floating university. After graduating from the university in 1893, Marie Curie worked as a physicist and married to Pierre Curie.

# Year 5/6

## Achievements

Marie Curie, along with her husband Pierre conducted many researches on radiation and they both later discovered the element radium in 1898. Aside from her discovery of radioactivity, she also made ground-breaking discoveries regarding to uranium. She found that an ore containing uranium was far more radioactive than its uranium content. With the help of science, Marie Curie became a WWI hero. This is because she saw that there needed to be a scientific advancement to the front line.

At that time, diagnostic equipment such as X-rays were limited. So Marie Curie developed a mobile radiography unit with X-ray equipment and generators and also recruited women, including her daughter Irene, to run them. Thanks to her work, millions of soldiers were diagnosed.

## Summary

Marie Curie, when she was still alive, she still continued her research with her husband. She has won multiple awards throughout her life, including the Nobel Prize which she in fact won twice (one in Physics and one in Chemistry). Marie Curie's work impacted the world by sparking many ideas and led to further discoveries and advancements in Instrumentation, medicine and energy production.

I never thought during lockdown I would see, A  
dog disappearing in purple fog.

I never thought during lockdown I would see, a  
giraffe walking down the street staring at me.

I never thought during lockdown I would see, a  
bright rainbow bee!

I never thought during lockdown I would see, the  
queen disagreeing with me.

I never thought during lockdown I would see, the  
neighbours cat with so many fleas.

I never thought during lockdown I would see, so  
many people at the store on a shopping spree.

# Year 5/6

## Robert Downey Jr.

### Orientation

Robert Downey Jr. is a world-renowned actor mainly for his starring role in the 2008 movie Iron Man. This movie is one of the best marvel movies to be made and was the first marvel movie to be made.

### Family Background

Born to actor Elsie Downey in the year of 1965 on the 4<sup>th</sup> of April. Robert was born in Manhattan, New York. Robert's father was a director and writer and his mother an actor. His father, Robert Downey Sr.'s ancestry is Half-Lithuanian Jewish, a quarter Hungarian Jewish and a quarter Irish. His mother's ancestry is English, Scottish, German and Swiss-German. He and his sister, Allyson Downey were introduced to acting at a very young age due to the fact their mother was an actor and their father a writer and director.

### Education

Robert studied at the Stagedoor Manor Performing Arts Training Centre in Upstate New York. He then moved to California after his parent's divorce. He then dropped out of Santa Monica High School in 1982 to pursue acting full time.

### Achievements

In the year 1970 he made his debut to the screen in the movie Pound which was written and directed by his father. He then went in multiple movies through the 80's and 90's. In 1992, Robert won the BAFTA (British Academy Award) He also received an Academy Award (Oscar) nomination. In 2001 Robert made his debut to Fox-TV series, Abby McBeal where he played as an attorney called "Larry Paul". For playing this role he won the Golden Globe Award for Best Performance by an Actor in a Supporting Role in a Series. He also won the Golden Globe Award for Mini-Series or Motion Picture made for Television, as well as the Actors Guild Award for Outstanding Performance by a Male in a Comedy Series. In 2005 Downey got married to Susan Downey and had two children. In 2008 he achieved critical acclaim for his starring role in the movie Iron Man which was a movie based off the Marvel comic books made by Stan Lee. Then in an even more successful sequel of Iron Man was Iron Man 2 where Iron Man faced off with a "Bad Guy" called Whiplash. Then over the years Downey starred as Iron Man in more movies such as The Avengers (2012) Iron Man 3 (2013) and Avengers: Age of Ultron (2015).

### Summary

Robert Downey Jr. is a world-renowned actor who is still very much alive and still acts although there will be no new Iron Man movies he will make a brief appearance in the 2021 movie Black Widow. For Downey's acting in the Iron Man and Avengers movies I would say he is one of the best actors in Hollywood. I'm sorry if that's not your opinion because that's just my opinion.

# Year 5/6

I never thought during lockdown I would see...

Day one of lockdown, it's been pretty boring in lockdown AND ITS ONLY BEEN THE FIRST DAY! For some reason I want to go back to school. The urge of playing games and relaxing is what I'm craving for right now but I have to get through it. Day two of lockdown, alright so I woke up at nine again BORING WORK and forgot about breakfast so I was starving, but this day was off and the vibe in my house was really, really off. Something wasn't right mom should be doing work in her office but she feels sick and she never feels sick her eyes were pure white and I thought nothing of it at first because her eyes were closed sleeping. Day three of lockdown, okay something isn't right at all mum has been asleep since yesterday morning and I hear footsteps on the roof, I felt a weird present right next to me and my face turned pale. I ran to my parents' room and my dad was floating in the air doing a ritual on a goat. I ran in the addict then I realise... I no, IM IN THE ADDICT. If you didn't know what the addict is it's the roof but scary noises come from here and footsteps. I passed out and woke up the next morning. Day four in lockdown. I knew what I had to do, I needed to investigate and find out what's been causing the mess, I walk down the addict and I never thought during lockdown I would see, HAMOOD HABIBI being controlled by Walter the dog. I had to put a stop to this, I kiss Walter then he stops, "Thank you boy, I'll never forget this moment" and he leaps into the air and vanishes Hamond Habibi thanks me and I went back into the house and everything was normal. The goat wasn't dead so I kept him as a pet and mum was doing work again and dads asleep.

By Brodie, 5/6NB

1.

I never thought during lockdown that I would see people staring at me when I'm wearing a mask only because I'm trying to stay safe from COVID 19.

By Emily, 5/6NB

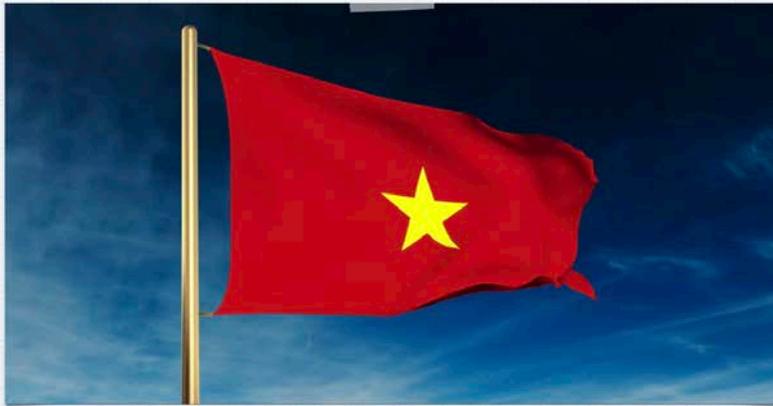

# Year 5/6

2.

I never thought during lockdown I would see the school closing to stay safe from the virus and I only got to see my friend only one day.

3.

I never thought during lockdown I would see that maybe this year I won't be able to travel to Vietnam since COVID 19.

# Year 5/6

4.

I never thought during lockdown I would see that I would do online class but also made my work improve as well.

5.

I never thought that I would see during lockdown that I would see that covid is back and that some stores are closed.

## Roald Dahl

### **Introduction/birth and death:**

Roald Dahl is a well-known author, that has written a lot of best sellers including Matilda, The BFG, Charlie and the chocolate factory and other beloved children's books. Roald Dahl was born on the 13<sup>th</sup> of September 1916 at Llandaff, Cardiff, United Kingdom. Unfortunately, Roald Dahl passed away on the 23<sup>rd</sup> of November in the year 1990 due to cancer of blood called myelodysplastic syndrome in Oxford. He was buried in the cemetery at the Church of St Peter and St Paul, Great Missenden, Buckinghamshire, England.

### **Education:**

Roald Dahl left Llandaff Cathedral school and went to boarding school at St Peter's, Weston-Super-Mare. Although he learnt a lot, he did not have a happy time. He got a little home sick at the start. In 1929, Roald left St Peter's and moved to a boarding at Repton, a famous British Public School near Derby. His first book was written in 1943, called the gremlins for Walt Disney. Unfortunately, the book was not successful, who wrote a collection influenced by his war time, but they did not sell well. He persevered and now he is famous across the world for what he has given to children.

### **Family Background:**

Roald Dahl's parents are Norwegian, and his mother is Sofie Magdalene Dahl and his father is Harald Dahl. Roald Dahl has 5 siblings, 4 sisters and one brother. His sisters are Else, Astri, Alfhild and Asta Dahl. His one brother is Louis Dahl, which is Roald's only brother. Roald Dahl has 5 kids, 4 girls and 1 boy. The girls are Lucy, Olivia, Tessa and Ophelia. The one boy is named Theo. He is married to Patricia Neal, Roald Dahl is named after an explorer named Roald Amundsen.

### **Major events/ life accomplishments:**

Roald Dahl has written a lot of children's books, that people still read today, some of the well-known ones are James and the Giant Peach, the witches, Matilda, the Twits, Fantastic Mr Fox, Georges Marvellous Medicine, Danny the champion of the world, Charlie and the chocolate factory, Boy, Charlie and the great glass elevator, the magic finger, the enormous crocodile, the giraffe and the pelly and me and the great mouse plot and many others. He remains for so many people the world's no. 1 story teller. He has also enlisted at the Royal Air Force and became a pilot, he served in the RAF during World War Two as a pilot.

### **Summary:**

Roald Dahl is an important person, because he has written important stories that many kids have seen, and he has made such good stories that movies have come out in some of them. These movies probably wouldn't have existed.

# Year 5/6

## Martin Luther King Junior

### *Orientation*

Martin Luther King, Jr. was a civil rights activist in the 1950s and 1960s. He led non-violent protests to fight for the rights of all people including African Americans. He hoped that America and the world could become a colour-blind society where race would not impact a person's civil rights. He is considered one of the great lecturers of modern times, and his speeches still inspire many to this day.

Martin Luther King, Jr. was born in Atlanta, Georgia on January 15, 1929. He went to Booker T. Washington High School. He was so smart that he skipped two grades in high school. He started his college education at Morehouse College at the young age of fifteen. After getting his degree in sociology from Morehouse, Martin got a divinity degree from Crozer Seminary and then got his doctor's degree in theology from Boston University.

Martin's dad was a preacher which inspired Martin to pursue the ministry. He had a younger brother and an older sister. In 1953 he married Coretta Scott. Later, they had four children including Yolanda, Martin, Dexter, and Bernice.

### *Life Events in Chronological Order*

In his first major civil rights action, Martin Luther King, Jr. led the Montgomery Bus be restricted. This started when Ros Park refused to give up her seat on a bus to a white man. She was arrested and spent the night in jail. As a result, Martin helped to organize a barrier of the public transportation system in Montgomery. The barrier lasted for over a year. It was very tense at times. Martin was arrested and his house was bombed. In the end, however, Martin prevailed and segregation on the Montgomery buses came to an end.

It was at this march where Martin gave his "I Have a Dream" speech. This speech has become one of the most famous speeches in history. The March on Washington was a great success. The Civil Rights Act was passed a year later in 1964.

### *Summary*

In 1963, Martin Luther King, Jr. helped to organize the famous "March on Washington". Over 250,000 people attended this march in an effort to show the importance of civil rights legislation. Some of the issues the march hoped to accomplish included an end to segregation in public schools, protection from police abuse, and to get laws passed that would prevent discrimination in employment.

Martin Luther King, Jr. was assassinated on April 4, 1968 in Memphis, TN. While standing on the balcony of his hotel, he was shot by James Earl Ray.

## The biography of William Leonard Hunt

Do you wish someone would do acrobatics? Do you want to watch a person balancing on a rope? Well William Leonard Hunt was one of them. This man was a master of ropes. He was born on the 10<sup>th</sup> of June 1838 at Lockport.

His career all started when he was 14 years old. He loved the circus and though I want to perform in the circus, but his strict parents won't let him go or perform at the circus, even though it's the only thing that was entertaining in the 19<sup>th</sup> century. He practiced at home and did some easy things when he was stand on the rope. When the traveling circus came to town, he used the rope and manage to dome some acrobatics while carrying heavy objects, but his dad was completely terrified and didn't want to do the idea William wanted to do! So, he did a deal with his father that he can continue to do his acrobatics if he goes to university, but he cancelled the deal when his father went on a trip at the age of 21. Now that his dad is gone, he can continue to do acrobatics.

If he wanted to be a circus performer, he had to tight rope walk over the Ganaraska river, which happens to be 278km. But he manages to do it. Now he has someone to compete with called the Great Blondin because William was still number 2. So, he had to step up his game in order to become number one.

In 1860, William manages to pull of the exact moves as Blondin did. But what made William number one is balancing with his head only. What supported this trick is using is toes on the rope and having a water bucket on his back.

When he went back home, his parents weren't even supporting him. Not one speck of supporting! Since that happened, he decided to move on his own with support of his parents. But in 1861, when he was 23 years old, she was married to Mary Osbourne. William was Mary's partner, until one day, she lost her balance and slipped. William manages to grab onto Mary's dress, but it ripped and mary lost her wife forever. But that didn't stop him from performing. He found someone in 1870 called Lulu and together, they're a unstoppable duo. But one performance, Lulu sliped and was rushed to the hospital. She was ok, but a wig fell out of her hair and it was Farini's son!

Thank goodness that William created new inventions to up his game and that's all you need to know about William. He had a sad life though because her wife died, but she's now married to Anna Müller! He did such amazing things like Balancing with his head on the rope, Tight rope across the Ganaraska river and practiced no matter what. But to tell you the truth, he was actually know as, The Great Farini. But I'm sure that Farini's son woud've grown up to be just like the Great Farini.

## Jack Black

### Orientation

Jack Black, One of the most famous actor, singer and songwriter. He was born on the 28<sup>th</sup> August, 1969. Born in Santa Monica, California, United States. He had a wife name Tanya Haden, A mother named Judith Love Cohen, a father named Thomas William Black and two siblings, Howard Black and Rachel Black. In 2020 Jack Black is now 51 years old and still makes everyone laugh.

### Life Events

Jack Black is world-wide famous, and has starred through many movies, too many that I need more than one hand to count. Jack Black's first movie he starred in was called High Fidelity and was a big hit, and was made 20<sup>th</sup> November 2003. Ever since then he has starred in that movie, he kept on going on with his career. But let me take you to his childhood. After Jack Black's parents' divorce, Jack moved to Culver City where he stayed with his father, but visited his mother every now and then. In 1982 Jack was selected to appear in a commercial for a video game called "Pitfall". So, he was pretty known back then.

### Summary

So, Jack Black. One of my favourite actors is very famous. Throughout his career he has been in many movies. When I mean many, I mean at least seventy. Like you can search that one up. He is famous for being an incredible actor, comedian, singer, songwriter and a youtuber.

Movies he has starred in down below |not all but some

**I never thought in lockdown I would see...**

**I never thought that I would see myself doing learning from home again, Because I thought everything was going great and no more corona here. But that wasn't always the case.**

**I never thought I would see thousands of people lining up to get tested and everyone just starting to talk to each other and get closer and closer!**

**I never thought I would see corona infecting my school, because school is a safe place and know home is a safer place for everyone. 😞**

By Aaliyah, 5/6NB

**I never thought during lockdown I would see...(in the news because I'm quarantining)**

**In the news I never thought I would see the shops so empty and areas that rarely have people there. I never thought I would see such a long line waiting for a COVID-19 test. I never thought I that schools would be in lockdown and I never thought seeing in the news that SA is going for a second wave.**

**I never thought I would see people rushing for toilet paper or other stuff and filling their houses with stuff that they don't need and not caring for other people who need the stuff the most.**

**During the lockdown I never thought I would see people social distancing while other people act like it doesn't even exist. I never thought I would see so much people determent to know if they are positive or negative. During the lock down I never thought that I would hear and see people talking so much on the news about this pandemic.**
